

Advertising on WCMOsports.com

WCMOsports.com is the only online high school sports source specifically for West Central Missouri.

We typically have 3,500 – 8,000 IP addresses that access the website each week, and 5,000 to 12,000 page views per day from our viewers.

Unlike print sources, WCMOsports.com can track how many people see your ads and how many people click on the links you may provide. We have several advertising packages and prices to fit your budget and audience.

You can keep your advertising in front of prospective purchasers far more often for the same cost as print advertising.

Pricing by Sports Season and Duration

If you are looking to advertise with us for an extended period of time, the following packages may be a good option for you. The below packages include advertising space in our main pages, message boards, athlete of the week and scores sections with **unlimited page impressions**. Please refer to our “WCMOsports.com Sections” page for further explanation of our sections.

All ads display randomly with other purchased advertisements. All banner ads will rotate in 20 second intervals and can link to your website.
